## Leading the way for the next generation of farmers, small business owners, and artisans.

In 2024 we are guiding the flock in a new direction. Figuratively speaking. For the past few years, our main programming here at the Eweniversity revolved around the classes and retreats that we offered.

Near the end of 2023, our board decided that the needs of these growing classes was becoming too much for us- and in 2024 we handed over control of these classes and retreats to the Nome Schoolhouse.

So now what? That was easy. **We stepped into a pressing and growing need.**

Every year, the Nome Schoolhouse and the Shepherd Industries Fiber Mill **receives multiple requests for guided tours and fiber education** - which our co-founders Chris & and Teresa love to provide.

However, the **cost of shutting down the Fiber Mill does not allow for a budget friendly option** for schools, 4H groups, and homeschool groups. They would call, hear the cost, and sadly opt out. **This is where we come in.**

## Welcome to Fiber 101.

**Together, we can build up this program and offer unique and hands on education that can shape the future of our youth and our economy.**

**Your donations will create an in-demand youth education program that would otherwise not exist. Your Generosity Will Provide:**

- Affordable Fiber Mill Tours for Youth
- Hands on and Engaging Education
- Funding to bring a Fiber Flock On-Site
- Funding to renovate the Barn into a Fiber Animal Education Center

# Giving Hearts Day - February 8, 2024. Making a larger impact.
